- Base board tracks
- Floor tracks
Anchor points at almost any position – custom fit with Airline track sets

You know configured tracks: determine your technical details and order your configured Airline track directly online. But wouldn’t you find it easier just to tell us the type of your vehicle and we deliver a ready to install set of Airline tracks?

The new Airline track set from allsafe offers just that. And even better, we deliver the set with the necessary fixing material and assembly manual. Suitable for many light commercial vehicles no matter how old or new and for almost all imaginable installation positions.

In order to allow quick and comfortable load restraint, Airline tracks can be installed at different positions of the vehicle. This allows huge flexibility in the positioning and securing of loads in vehicles – no matter if you are working with shoring bars or with textile products.

With our configuration system you can configure the exact Airline track set that you need. Further sets can be installed at a later time.
Track sets for transporters

Set 1: Floor tracks
Set 2: Roof tracks
Set 3: Sidewall tracks
Set 4: Bulkhead tracks
Set 5: Base board tracks
Retrofitting tracks into your vehicle has been identified as very time consuming – you need to measure, saw and drill each track. Wouldn’t it be nice if someone would take over this pesky task for you?

The ready to install track solution, which is custom made for your needs, shortens the installation time and effort needed. The sets are custom fit for your vehicle. You avoid the time consuming preparation, allowing you to dedicate your time and efforts to the installation itself. And your customer will appreciate your quick service!

The high-quality aluminium tracks are pre-drilled to fit your exact vehicle dimensions. A permanent laser identification marking and end caps give the track a first class appearance.

And if you wish, our specialists will take care of the installation for you.

Suitable for:

- most common transporter makes and sizes
- all industries and transport tasks
- new and used vehicles

1 Full flexibility when all track sets are used. Thousands of lashing points available.

2 Permanent and strict controls for a certified load capacity of 150 daN/m (ISO 27956)

3 Quick and easy installation through custom fit sets including the fixing material.

4 Installation service from allsafe upon request.

Your advantages:

- save time during installation
- includes fixing materials
- individually combinable
- certified load capacity

Update for your transporter
Ready to install Airline track sets – custom fit for your vehicle
Track sets for transporters

Track sets | Load restraint
for transporter
