- anti-twist fixation at top ▶ also fits in round hole tracks
- profi hand grip ▶ ergonomic and safe

KIM 7x9

strong and removable

- very robust ▶ for continuous loading and unloading
- ergonomically adjustable ▶ little physical strain

Your customized KIM. Compose it yourself:

► Total length

Configure your KIM for your vehicle. We produce your KIM to fit your exact internal dimensions.

► Adjustment range (only with KIM Profi)

KIM Profi has a large adjustment range, meaning that it can be used horizontally or vertically. It can also be used in vehicles with various interior dimensions. With just one look at the telescope insert you can tell which blocking force applies for your current working length. The new lever mechanism allows for a very ergonomic fitting and removal.

► End pieces

KIMs can be configurated with 19 or 24 Ø mm slotted or solid bolts which fit perfectly in 20 or 25 Ø mm Airline or round hole tracks. Slots are also compatible with pin tracks.

► Load protection

Accessories for preventing damage to fragile goods. KIM 46 and KIM 46 Profi can be configurated with a protection sleeve which is mounted during production.

► Product identification sticker

All KIMs are supplied with a certified load capacity specification on our product labels. Another one of our top standards is our QR Code which shows all important information about your Faktor-4 product. Use the allsafe-app to easily proof, calculate and manage your allsafe products.

► all:change

KIM is covered by our all:change-promise. That means we maintain and repair damaged or worn-out KIM for a fixed price. Annual safety check, pick-up and delivery are included.
